

Coweta County School System Advisory to Parents

As with other health related issues, this notice is to inform you that Coweta County School System administrators and our Lead Nurse are in communication with District 4 Public Health officials regarding guidelines and recommendations related to the Coronavirus. The most recent guidelines from the Georgia Department of Public Health can be found in the links below. We are hoping to receive updated guidance from local health officials soon and we will forward that information to you when we receive it. We will also send a hard copy of this letter home with all students on February 27, 2020.
